

Ammaarah Basha

Software Developer & Graphic Designer

PROFILE

Aspiring Full-Stack Developer and Graphic Designer with a strong passion for both technology and visual design. Equipped with foundational training in full-stack web development, backend systems, UI/UX design, and digital design. Completed a Full Stack Development certificate through the FNB App Academy and currently expanding my technical skills as a WeThinkCode_ student through hands-on coding projects and continuous learning.

Experienced in creating website designs, user interfaces, digital graphics, visual content, and creative layouts using a range of modern design tools. Passionate about transforming ideas into engaging and visually appealing designs, while combining creativity with technical problem-solving to create functional and user-focused digital experiences. Equally driven by graphic design and software development, with a strong interest in building applications and creating compelling visual experiences.

EXPERIENCE

Graphic Designer

(November 2025 - Current) @ LEXXIS

Designed website layouts and UI concepts using Canva, Figma, and Replit

Created multiple professional presentations for various concepts

Applied creative design thinking across different project themes
